No.786-J/56-7 dated 18-9-56.

Sir,

Sub:- Electricity - Supply of Jog Power in bulk to Mangalore licensee - Exemption from payment of surcharge - Regarding.

p. 3 ante Ref:- Government Memo No.3397-P/56-1 P.W. dt.5-9-56.
===

.15th I have to state that the Mangalore licensee has availed Jog supply from the ~~18th~~ of September. In regard to exempting the Mangalore licensee from the payment of surcharge, I have to state that it was not the intention to exempt the licensee from the payment of surcharge altogether. But the intention was to exempt the consume in Mangalore licensee's area from the payment of 10% surcharge as the licensee's tariffs are higher than the departmental tariffs, and lower the rate for the Mangalor licensee. This was also accepted by Government in para 2 of Government Memo No.2609-P/56-2 P.W. dt.18-6-56.

1 of of (K)
(G.O.Ms. 3485 P.W. 11.8.56)

2. In regard to the surcharge to be levied for supply of power to Mangalore licensee, I invite referenc to paras 2 & 5 of my letter No.786-J/56-1 dated 23-3-56 wherein it was suggested that for H.T. Supplies to the consumers served by power purchased from other sources, the departmental H.T. tariffs with the 50% surcharge as in Hydro Electric areas may be applied and that for supply to Mangalore licensee, the departmental H.T. Tariffs with the 40% surcharge as is being paid by the licensees in H.E. Hydro Electric areas, may be applied.

3. Since as per agreement approved in G.O. M.S.No.3028 P.W. dated 6-7-56 and G.O.3485 P.W. dated 11-8-56 H.T. Tariffs I (a) as in Hydro Electric Power ta with the 25% increase which forms tariff proper has been approved as the tariff, a suitable percentage of surchar is to be fixed for levying on the above tariff. Accordin

15-17 of of (K)

~~Not~~ item II of clause 6 of the surcharge order as amended in G.O.Ms.No.3059 P.W. dated 9-7-56, the distributing licensees are, at present, subject to 40% surcharge. If the above 40% surcharge is levied on Mangalore licensee over the tariff proper viz. standard H.T. tariff plus 25%, then the rates to be charged for this

Copy of (P)

.....2

licensee will be 175% of the H.T. Tariffs of the Hydro Electric Power tariffs which is not desirable as the rates that are being charged for other licensees are only 140% of the H.T. Tariffs. The other H.T. consumers are paying only 150% of H.T. tariffs in all the areas (excepting Madras). Therefore I suggest that only 12% surcharge may be levied over the tariff proper viz. H.T. Tariff I(a) plus 25%, for supply to the Mangalore licensee. Then the rates to be charged for Mangalore licensee will also be 140% of the H.T. tariffs, the same as the one applicable to licensees getting bulk supply from the Departmental stations. If the above suggestion is agreed to, the following amendment to the surcharge order may be issued at an early date;

a) For item II of clause 6, the following shall be substituted:-

II. (a) Distributing licensees except Mangalore licensee receiving bulk supply from the Department 40%

(ii) Mangalore licensee receiving bulk supply from the Department from the power purchased from Mysore 12%

b) At the end of item IV of clause 6, the following shall be added:-

"except consumers in Mangalore licensee's area".

3. I request urgent approval of Government to the proposal.

N. Ramamurthy

Read the following:-

Memorandum No.2609-P/56-2, Public Works, dated 18-6-1956.
From the Chief Engineer (Electricity) Letter No.786J/56-7, Dated 18-9-1956.

O R D E R:-

Under the Second proviso to clause (8) of the Madras Electricity Supply (Government and Licensees' Areas) Surcharge Order, 1954 published at pages 288-290 of the Rules Supplement to Part I of the Fort Saint George Gazette dated the 25th August 1954, as subsequently amended, the Government of Madras hereby exempts the consumers in the area of supply of the Mangalore Electric Licensee from payment of the 10 per cent surcharge leviable under clause (6) of the said Order. This order shall be deemed to have come into force from the 15th September, 1956.

2. The Government approve the proposal of the Chief Engineer (Electricity) that a surcharge of 12% over the tariff proper, viz., Electricity Department Hydro Electric Tariff I (a) plus 25%, may be levied on the supply of Jog power made to the Mangalore licensee from 15-9-56.

3. In exercise of the powers conferred by section 3 of the Madras Essential Articles Control and Requisitioning (Temporary Powers) Act, 1949 (Madras Act XXIX of 1949) as re-enacted by Madras Act VI of 1956, the Governor of Madras hereby makes the following amendments to the Madras

P.T.O.

Electricity Supply (Government and Licensees Areas) Surcharge Order, 1954 published with Public Works Department Notification dated the 16th August 1954 at pages 283-290 of the Rules Supplement to Part I of the Fort Saint George Gazette, dated the 25th August 1954, as subsequently amended:--

AMENDMENTS.

In the said Order, in clause (6)

(i) for item II the following item shall be substituted, namely:-

"II (a) Distributing licensees receiving bulk supply from the Department except Mangalore Licensee. ... 40

(b) Mangalore licensee receiving bulk supply from the Department from the power purchased from Mysore. ... 12

(ii) in item IV, the following shall be added at the end, namely:-

"except consumers in Mangalore Licensee's Area."

Sub: Electricity - Supply of Jog power to Mangalore licensee - Surcharge on licensee and consumers in licensee's area.

Ref: From the C.E.(E), letter No.786 J/56-4, dated 26-7-56.
Memo. to the C.E.(E), No.3397 P/56-1, d/5-9-56.
From the C.E.(E), letter No.786 J/56-7, dated 18-9-56.

Please see the letter from the C.E.(E) on pp.5-7 c.f.

2. The C.E.(E) has made the following proposals:--

(1) that the consumers in the area of the Mangalore licensee may be exempted from the payment of 10% surcharge; ~~from 15-9-56, the date on which Jog power was distributed in the area;~~

(2) that a surcharge of 12% may be levied on the supply made to the Mangalore Licensee from 15-9-56;

(3) that consequent on the above two proposals, necessary amendments to the Madras Electricity Supply (Government and Licensees' Areas) Surcharge Order, 1954 as shown at 'A' on p.7 c.f. may be approved.

The above proposals are noted upon in the following paragraphs:-

3. Item (1) in para. 2 above. Prior to availing Jog supply, the Mangalore licensee was generating the power required for distribution in his area of supply himself. Therefore the 10% surcharge which is collected from consumers in the areas of other licensees ~~was~~ getting supply from the Electricity Deptt. was not being levied on the consumers in the area of suppl of the Mangalore licensee. As the existing tariff of the Mangalore licensee is higher than the Electricity Department tariff, the C.E.(E) suggested that the consumers in Mangalore licensee's area need not be called upon to pay the 10% surcharge when the licensee avails Jog supply, because it would have a bad psychological

effect if the consumers were asked to pay more on the advent of Jog supply. The C.E.'s suggestion has already been accepted - vide para 2 of Memo. No.2609 P/56- dated 18-6-56. A formal order exempting the consumers under the second proviso to clause (8) of the Surcharge Order may now be issued.

4. Item (2) in paragraph 2 on p.1 ante.

The C.E.(E) has explained the reasons for suggesting a special rate of surcharge of 12% on the supply made to the Mangalore licensee in para 3 on pp 5-7 c.f. In the circumstances stated therein, the C.E.'s proposal may be accepted.

5. Item (3) in paragraph 2 on p.1 ante.

The amendments to the Surcharge Order proposed by the C.E.(E) at 'A' on p.7 c.f. seem to be in order and may be accepted.

6. A draft order for approving the above proposals is submitted for approval.

7. Law (Scrutiny) and Finance may see before issue.

Copy of No.786-J/56-1, Dated 23-3-1956 from the Chief Engineer, for Electricity, Madras-2 addressed to the Secretary to Govt., Public Works Department, Madras-9.

Sub:- Electricity - Extension of supply to South Kanara District from Jog Falls - Tariffs for supply - Proposals - Submitted.

The scheme for purchase of bulk power from Mysore and distribution in South Kanara District was approved by Government in G.O.Ms.No.3270, P.W., dated 1-9-1950. In G.O.Ms.No. 441, P.W., dated 5-2-1952 Govt. have also approved the revised estimate for the scheme for Rs. 70.3 lakhs initially raising to Rs 88.0 lakhs in 10 years.

2. It is expected that the department will avail the supply of power from Mysore in the course of this year. According to South Kanara Scheme report Jog supply of power will be extended to Mangalore Electric Supply Under-taking area also. In the scheme report the tariff as for Ceded Districts Scheme viz.,L.T. Tariff Schedule "A" plus 25% increase plus 10% surcharge, was proposed to be applied in the South Kanara area. It was also the intention of the department that the above tariff should be applied in areas served by power purchased from other sources. In this connection kind reference is invited to my letter No.270-J/56-1, dated 6-2-56. But as the Government are contemplating the increase of surcharge on H.T. consumers in Hydro Electric areas to 50%, the above proposals will result in the anomaly of consumers in these areas having to pay only 137½% of the H.T. Tariff, while in the departmental areas H.T. consumers will be paying 150% of the basic rate. In the circumstances the H.T. tariff to be applied for bohh hydro electric areas and in the areas served by power purchased fromother soure may be uniform, and I suggest hat for H.T. supply of power in respectof areas where power is purchased and distributed (i.e. Kollegal), Fort Cochin, Shoranur and Guruvayur areas and South Kanara area) the departmental H.T. Tariff as in Hydro Electric Power tariffs with the surcharges (i.e.150%) as obtaining from time to time in Hydro Electric areas may be applied.

3. As according to the proposals of the Government, the increase in surcharge (i.e. 30%) how to be made will not apply to Railways and to industries for the first three years of production, I suggest that the departmental H.T. Tariff as in Hydro Electric Power Tariffs plus 25% increase plus 10% surcharge as is being now charged in Kollegal and Fort Cochin areas, may be applied for H.T. supply of Power to Railways and other industries which commenced operation within three years.

4. For L.T. supply of power in the South Kanara District, I suggest that the departmental L.T . Tariff as in Schedule 'A' plus 25% increase and plus 10% surcharge as is being now charged in Kollegal and Fort Cochin areas, may be applied.

5. According to the proposal in para 2 of above, for bulk supply of power to Mangalore licensee, the Licensee will be levied a 40% surcharge, over the H.T. Tariff. The consumers in licensees areas supplied with energy from the department pay a 10% surcharge ~~on the~~ Licensee area need not be called upon to pay this surcharge as the existing tariff of the Mangalore Licensee is higher than the departmental tariffs and as it will have a bad psychological effect if the total cost of energy to consumers rises onthe advent of bulk supply. Consolidating, the consumers in the areas served by power purchased from other sources (i.e. Kollegal, Fort Cochin, Shoranur and Guruvayur areas andSouth Kanara District) will be charged as follows:-

on their bills. I suggest that consumers Mangalore

(1) For H.T. supply.. Departmental H.T. Tariff as in H.E.Power tariffs with surcharge as in these areas. In respect of a supply to Railways and Industrial consumers for the first three years of production, the existing rate viz., H.T. Tariff increased by 25% and overall surcharge of 10@ will apply.

(2) For L.T. supply:- Departmental L.T. Tafiff as in Schedule 'A' in Hydro Electric Power tariffs plus 25% increase plus a 10% surcharge.

6. The proposals will require amendments tothe following orders and may be issued.

(i) G.O.No.2762, P.W., dated 31-7-48 approving tariff to be adopted for Kollegal area.
(ii) G.O.No.1628, P.W., dated 27-4-55 approving tariffs to be adopted for Fort Cochin Area.
(iii) My letter No.270-J/56-1, dated 6-2-56 proposing tafiffs for Shoranur and Guruvayur area.

The following may be substituted for the existing para 6 in G.O.M.sNo.2845, Public Works, dated 16-8-54, subject to the presen proposal for increased surcharge in the areas being confirmed by the Govt:-

"(6) The surcharges referred to in clause 3 shall be levied on the overall charges referred to in Clause 4 at the following rai

	Percent.
(1) All H.T. consumers served by the department direct (other than Distributing licensees receiving bulk supply from the Department and Railways and industrial consmmers for the first three years of production).	50
(2) H.T.supply to Railways ahd industrial consumers for the first three years of production, served by the department from its hydro-electric station.	20
(3) H.T. Supply to Railways and industrial consumers for the first three years of production in the areas served by power purchased from other sources.	10
(4)All L.T. consumers served by the dept. direct.	20
(5) All L.T. consumers in areas served by the Dept. from the power purchased ffom other sources.	10
(6) Distributing licencees receiving bulk supply from the department.	40
(7)Consumers in areas of distribuin Licensees receiving bulk supply from the Dept. (except donsumers in the Mangalore licensed area).	10

7. Irequest early orders of Government.
